## **C-1 SCOPE OF WORK**

### **1.1 Description**

Bus Shelter (BS) specifications have also been made the part of the tender documents.

1. The dimension of Bus Shelters for Three Pole shelters shall be and 10 m x 2 m. Prospective bidder can physically inspect the model Bus Shelter erected by the IT Expressway Ltd, at various locations in Rajiv Gandhi Salai from SRP Tools junction to Siruseri for reference purposes.
2. All the structural members of the Bus shelters shall be of Stainless Steel of ASTM 304 Grade.
3. The list of locations of Three pole shelters are enclosed in Annexure 2 and may be modified as per site conditions
4. The covering of the roof shall be made of polycarbonate sheet, not less than 10 mm thick, and colour of the roof shall be approved prior to construction (preferably transparent) from the Engineer-in-Charge of ITEL. The fixing of roof shall be performed in a manner so as to make the roof leak-proof and shall withstand wind-loading under all conditions and as per standard specifications as applicable.
5. Coloured shade pre-fabricated cement concrete tiles shall be provided in the flooring over the base of plain cement concrete in the area not less than or 50 sq. m., as appropriate considering the dimensions of the Bus Shelter. Colour of the flooring tiles shall be approved by the Engineer-in-Charge of ITEL prior to construction.
6. The minimum clear roof height between the flooring and the ceiling shall be 3.60 metres.
7. The area for advertisement in each Three Pole Bus Shelter is restricted to 180 Sq.Ft. (Back Panel size of (21' 0" length) x (5' 0" height) and Top Panel Size of (25' 0" length) x (3' 0" height) only.
8. Bus route numbers, public awareness slogans and postal index No. shall be displayed at top side of the Bus Shelter.
9. Advertisement(s) shall be mounted only on the Back Panel and Top panel (Facing the road) in accordance with the area specified above.
10. Advertisement(s) will not be allowed on angular or side panels.
11. Stand alone panels will not be allowed.
12. Space shall also be reserved for provision of a clock and route map at the location within each Bus Shelter as directed by the Engineer-in-charge of ITEL .
13. Hand-rails of Stainless Steel ASTM 304 grade shall be provided in the Bus Shelters parallel to the kerb. Height of installation, arrangement of rails, spacing and related requirements shall be as directed by the Engineer-in-charge of ITEL .
14. Suitable seating arrangement shall be provided for a minimum of ten (10) persons in each bus shelter.
15. Suitable kerb shall be constructed to facilitate ease of boarding and alighting of passengers, particularly physically challenged and senior citizens. Ramps shall also be provided on both sides of the Bus Shelter for ease of access for physically challenged persons and Senior Citizens with a minimum slope of 1:40.
16. Materials used for construction including items such as fasteners, ties etc. as applicable, shall be vandalism proof.

The construction drawings, including foundation drawings are to be prepared by the successful bidder as applicable and supported by necessary calculations and estimates and utilizing most recent version of standard specifications and requirements and submitted for approval from the Engineer-in-Charge, ITEL.

## **1.2 Facility Planning**

The Concessionaire shall construct structurally sound and aesthetically appealing facilities as per plans provided by the ITEL. However, in areas where deviations are necessitated due to space or location constraints, the ITEL shall consider permitting such variations with prior approval in Consultation with Engineer-in-Charge. The requisite services as may be essential from the users' points of view would be provided by the Concessionaire.

## **1.3 Specific Scope of Work**

The project scope would include the following major activities:

### **(1) Preparation of Construction Drawings**

This includes the following:

- (a) Preparation of Construction drawings as per the specifications and requirements including structural designs and obtaining approval of the ITEL.

### **(2) Construction Works**

This includes the following:

- (a) Necessary site clearing, restoration and preparation of working surface.
- (b) Removing and relaying of paver block, sand & other crust materials, once the work is completed.
- (c) Construction of modern user and environment friendly Bus Shelters as per the design, drawings and specifications provided by ITEL .

### **(3) Operational Management**

This includes Bus Shelters' operations i.e. regular cleaning of the shelter and its surrounding areas, functioning of user amenities, provision of dedicated security personnel who will also assist physically challenged and senior citizens, handling emergency situations, functioning of information and communication systems, if any, availability of basic infrastructure requirements such as electricity for lighting purposes, proper drainage, removal of municipal solid waste, and telecommunication would form part of operations.

### **(4) Maintenance Works**

It will include, but not necessarily be limited to, routine and periodic maintenance works in the Bus Shelters as listed below:

- (a) Civil, electrical and mechanical works for the Bus Shelters
- (b) Furniture and Equipment maintenance and servicing

## **(5) Services to be Provided**

- i. **Water Supply:** The Concessionaire shall ensure cost and supply of adequate water for general cleanliness of the Bus Shelter
- ii. **Electricity Supply:** The Concessionaire shall ensure adequate electricity supply and cost for proper lighting of the Bus Shelter and advertisements.
- iii. **Cleaning of the Bus Shelter:** The Concessionaire shall ensure daily cleaning of the Bus Shelter.
- iv. **Garbage Disposal:** The Concessionaire shall install litter-bins as specified near the Bus Shelter and safe disposal of the collected municipal solid waste in accordance with ITEL stipulated waste handling rules shall be the responsibility of the Concessionaire.
- v. **Safety & Security:** The safety and security of the Bus Shelter rests with the Concessionaire. The Concessionaire shall maintain security personnel, gadgets as required as part of the maintenance services.
- vi. **Other Facilities:** The Concessionaire shall construct/provide structurally sound and aesthetically appealing passenger facilities such as clock, route maps, ramps, hand rails and beepers to visually challenged persons as per plans approved by the ITEL. However, in areas where deviations are necessitated due to space or location constraints, the ITEL shall consider permitting such variations with prior approval.

## **C-2 PROJECT COST**

The project cost would include the cost of Construction comprising civil, electrical and other costs. There will be recurring annual cost associated with operation and maintenance of the Bus Shelters which shall be the responsibility of the Concessionaire, including cost of Water, Electricity and other connected items.

## **C-3 REVENUE GENERATION SOURCES**

Advertisement is the identified and permitted source of revenue from the Bus Shelters.

**Note:** The data given herein is for general information and guidelines of the bidder. Bidder is expected to make his own estimates of revenue before submitting their Proposals. No Claim shall be entertained in this regard at any stage.

## **C-4 DETAILS TO ACCOMPANY RFP**

### **4.1 TECHNICAL PROPOSAL**

The Bidder shall submit the following along with the Proposal in sufficient details to enable evaluation of their grasp of the work and ability to execute it within the Time of Completion.

#### **4.1.1 Organizational Structure during Construction and Operation**

The Bidder shall submit their proposed organizational structure during Construction, operation and maintenance stages commensurate with targeted Project Completion Schedule, which will form the basis of Employment Schedule. The Bidder shall also enclose CV's of the key persons including tasks assigned to them.

#### **4.1.2 Construction Schedule**

This shall consist of a detailed program of construction with supporting calculations, deployment of man and machine showing bar chart showing in sufficient details, completion of various section of Work and the date and order in which the Bidder Proposed to carry out different parts of the Works. This construction schedule shall form the basis for preparation of detailed CPM schedule to be furnished after the award of the Concession.

#### **4.1.3 Operation Schedule**

The operational schedule will consist of the procedures and practices to be followed in keeping the facility working and the processes followed for operations. Daily operational schedules for the Bus Shelters including housekeeping, security/ watch ward, lease agreement monitoring will form part of this schedule.

#### **4.1.4 Maintenance Schedule**

Maintenance schedules would contain time schedules and scope of maintenance work to be taken up, under the routine maintenance and regular maintenance.

#### **4.1.5 Employment Schedule**

This shall consist of a chart showing deployment of monthly manpower (including skilled and unskilled labour of various categories) commensurate with the Construction Schedule and the Operation and Maintenance schedule.

#### **4.1.6 Conformity and Improvements**

In conformity to the fixed parameters, technical specification and performance standards, the Concessionaire can propose need based additional facilities to users in the bus shelters. For e.g., options to equip a specified number or all of the Bus Shelters with solar panels for generation of electricity shall also be indicated in the Proposal. In case the bidder proposes additional facility in the bus shelters, the bidder should submit details of additional facilities, for review and approval of ITEL. However, all such additional facilities are to be performed at the Bidder's own cost and at no additional cost to the ITEL nor reduction or change in the Annual Concession Fee.

#### **4.1.7 Cost estimates of the Bus Shelter**

- Cost estimates of the Bus Shelter, based on the Design and details provided by ITEL, shall be furnished in the RFP. The bidder shall prepare a cost (item wise) and cash flow estimates for executing the work, along with a break-up of the O&M expenses for the Concession Period.

## 4.2 FINANCIAL PROPOSAL

The bidder shall submit the financial proposal giving the following details;

- **Concession Fee**

The bidder shall quote the Concession Fee to be paid by the Concessionaire per year on a lump sum basis in Indian Rupees with the specified annual compounded increase of five percent (5%) that the bidder would pay to ITEL on an annual basis during the entire concession period in the prescribed format given in Appendix 6.

- **Financing Arrangement for the Project**

Bidder shall enclose the probable means of financing the project such as sanction order/commitment letter from the Banks/ Financial Institutions should be enclosed.
